Hello Ludamir.

Tonite is a special night for me, because I abandoned the sailing community for a while. What I mean is that I joined the working class again in order to bring a little bit of butter on our bread. And all I can say is that I keep on thinking about you because of all the yachtmen around us I identified you as a true sailor. A true sailor because of your personality and because of your boat "Maria".

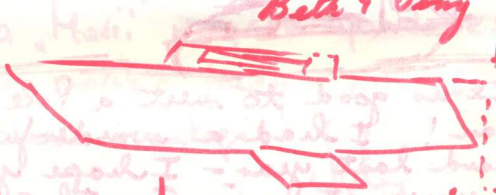

I hope you will achieve all you set out to do and that it will all be in happiness. If you can wait for us somewhere we will meet again
